

Report on National Seminar attended by Teachers

2 April 2025

On 27 March 2025, IIMT College of Science and Technology successfully hosted a national seminar on 'Revolutionizing Education: Integrating Indian Knowledge System with Modern Pedagogy.' The seminar aimed to explore the dynamic intersection between traditional Indian knowledge systems and contemporary pedagogical practices. The event witnessed active participation from scholars, educators and students, fostering insightful discussions on how both domains can be integrated to enrich the educational landscape.

During the seminar, five esteemed faculty members from St. Thomas' College of Education presented their papers.

Dr. Poonam Pandey

Dr. Nisha Tyagi

Dr. Priyanka Bhardwaj

Dr. Indu Bala Kushwah

Dr. Kavita Singh

These speakers delved deeply into various aspects of the seminar's theme, presenting innovative ideas and practical approaches for blending India's rich educational heritage with modern teaching methodologies.

Each speaker delivered their respective papers with a strong academic foundation and clarity. They provided thought-provoking perspectives on how integrating the Indian knowledge system-with its emphasis on holistic learning, wisdom and spiritual development can complement and enhance modern pedagogical frameworks.

The event concluded with a vote of thanks, acknowledging all speakers' and participants' contribution. This successful platform for knowledge exchange has set the stage for future collaborations between the Indian knowledge system and contemporary educational practices.
