

Brief Profile: Dr. Jyoti Raina

Dr. Jyoti Raina is a distinguished Professor of Education at **Gargi College, University of Delhi**, dedicated to advancing the field of teacher education through her extensive teaching, research, and scholarly writing. With over three decades of academic experience, she has been instrumental in shaping the perspectives of student-teachers by integrating theory with classroom practice. Her teaching spans a wide range of courses in educational studies, focusing on the **psychology of learning, educational policy, and initial teacher education**.

She has authored and edited several influential works, including *Elementary Education in India: Policy Shifts, Issues, and Challenges* (Routledge, 2020) and a forthcoming edited volume titled *Student Teacher Research: Insights from India's Bachelor of Elementary Education Programme* (Routledge, 2025). Her research offers critical insights into the evolving landscape of Indian education, emphasizing the importance of reflective practice, inquiry-based learning, and teacher professionalism.

Currently, her scholarly interests lie in **student-teacher research, writing pedagogy, educational policy, and teacher professional development**. Through her academic contributions, **Dr. Raina** continues to advocate for transformative teacher education that fosters critical thinking, democratic engagement, and research-informed pedagogy among future educators.
